

Simpson Motorsport 2016 V de V Champions are pleased to offer seats in the fabulous Ginetta G57.

After a successful debut year Simpson Motorsport and Ginetta have grown a strong relationship to deliver a fantastic team to run this great car. The Ginetta G57 P2 currently offers LMP2 pace for the running costs less than that of the LMP3 cars. The prototype weighs in under 900kgs and is powered by the fearsome Chevrolet LS3 making the car very easy to drive.

We are interested in talking to funded drivers looking to compete in the 24hr Proto Series.
