Scoring points at Half way mark, conditions

The following articles are added to art. 39.16.1 Conditions to be awarded with points:

Art. 39.16.1.5 Conditions to be awarded with points at Half way mark

Art. 39.16.1.5.1 Half way mark definition

Conditions to be awarded with points at half way mark (See Serie bulletin 01/2022 art. 39.5 Allocation of points).

The Half way mark (e.g. 12H @24H race) classification is defined as: the classification at exact the Half way mark (Half way race-time is considered 50% of the initial race duration).

It can be considered as a "photo" of the timing at the half way mark (For an example Called: "Intermediate Result Race | Race Time = 12:00:00). So no chequered flag. No completing of the lap.

Art. 39.16.1.5.2 50% lap rule at Half way mark

Also for the Half way mark the 50% rule is applicable.

Only competitors (teams and drivers), which have achieved a minimum of 50% of the laps of the OVERALL leader of their division (TCE- or GT-division) will be classified and only these teams will be awarded with points. See art. 39.1.3 of this chapter.

Art. 39.16.1.5.3 Minimum driving time at Half way mark

For a driver, to be awarded with points in the championship ranking at the Half way mark:

A driver needs to have driven at least:

- No driving time requirements

Art. 39.16.1.5.4 Half way mark, race stopped

If the scheduled distance of a race is shortened or the race is stopped and cannot be resumed, the points will be allocated as follows:

- If Half way mark is passed; Awarded Half way points remains awarded. Points after the race is stopped, according: 39.16.1.4
- If Half way mark is NOT passed; No Half way points are applicable. Points after the race is stopped, according: 39.16.1.4

Art. 5.4 Chapter III: **Race Position Display (LED)**
This article is replaced by the following text

5.4 LUMIRANK Display and STS Driver Information Display

5.4.1 LUMIRANK Display

Each competing vehicle must be equipped with the LUMIRANK display. The display and mounting instructions are provided by the promoter at each event. The rental of the LUMIRANK display is included in the entry fee, a deposit must be paid. Any damage or cleaning of the LUMIRANK display after return must be covered by the competitor.

During the official sessions, the LUMIRANK display is used to display the current overall position of the car within its division. The promoter reserves the right to use the LUMIRANK display for further purposes. Any such purpose shall be described in either the Supplementary Regulations of an event or an official promoter's communication.

Please note this display is for information only. For official results and standings please refer to the official results and timing monitors.

The LUMIRANK display, in conjunction with the STS Driver Information display and MyLaps X2 RaceLink system, must be connected to the 12V current of the car in a way that the power supply is ensured even if the engine is switched off.

The mounting position of the LUMIRANK display is on the top of the front window, passenger side.

The colour of the LUMIRANK display indicates the division. GT = WHITE, TCE = YELLOW.

5.4.2 STS Driver Information display (DID)

Each competing vehicle must be equipped with the STS Driver Information display.

The display and mounting instructions are provided by the promoter at each event. The rental of the STS DID is included in the entry fee, a deposit must be paid. Any damage or cleaning of the STS DID after return must be covered by the competitor.

During the official sessions, the STS DID is used to display race-related information to the driver inside the car. This includes the presentation of the track status, flags, timing information and messages from the race director.

Please note this display is for information purposes only. See art. 28.5 Chapter I for flag signals. The promoter reserves the right to use the STS DID for further purposes. Any such purpose shall be described in either the Supplementary Regulations of an event or an official promoter's communication.

The mounting position of the STS DID is on the dashboard inside the car, in driver's view.

5.4.3 Mounting Instructions

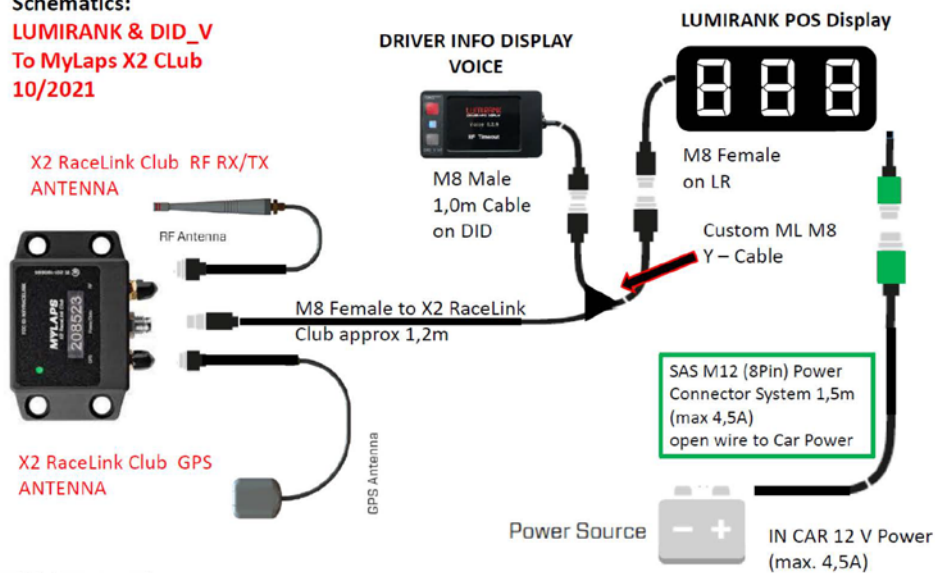

The LUMIRANK display, in conjunction with the STS Driver Information display and MyLaps X2 RaceLink system (art. 5.6, Chapter III), must be connected to the 12V current of the car in a way that the power supply is ensured even if the engine is switched off.

The mounting positions and connection instructions are as pictured below:

LUMIRANK & DID_V To MyLaps X2 Club 10/2021

Art. 5.6 Chapter III: **MyLaps X2 RaceLink**
This article is added

5.6 MyLaps X2 RaceLink

Each car must be equipped with an MyLaps X2 RaceLink system. Both the "Club" and "Pro" version of the system are eligible.

The system can be purchased via the Official timekeeper.

The MyLaps X2 RaceLink system must be installed according to the installation guide in conjunction with the LUMIRANK (art. 5.4.1, Chapter III) and STS DID (art.5.4.2, Chapter III). The system must be used with the official MyLaps RF antenna and the GPS antenna. Both antennas must be placed on the roof of the car. It is recommended to guide the cables out of the car via a small hole in the roof.

The MyLaps X2 RaceLink system is used to receive the live GPS position of each vehicle and be able to transmit data to the car (two-way communication). Only the Race Director or his deputy is allowed to utilize the system to send data to the car. The system may also be used to monitor the live speed of each vehicle.

Art. 28 Chapter I: **Flag Signals**
This article is added

- 28.5** The STS Driver Information display (DID) (art. 5.4.2, Chapter III) is used to display the flag status and flags to the driver in each car. However, at any moment during the event, the STS DID must be regarded as an information tool and does not replace or overrule the official flags and flag panels around the circuit. In any case, the official flags presented by marshals and displayed on flag panels are valid and prevail over any information presented on the STS DID.
