#### **Clarification of art. 39.16.2.2**

**"39.16.2.2 24H SERIES EUROPE Scratch Results / Number of races that count towards the championship**

*For any ranking within the 24H SERIES EUROPE, there is one scratch result.*

*The scratch result is:*

*The race with the lowest number of points achieved OR a race that the team/driver has not participated in."*

Interpretation:

There will be one scratch result for each race, meaning (with above calendar):

- that the best five result from six rounds are taken into account for the GT division
- that the best four results from five rounds are considered for the TCE division (12H SPA is NOT considered as a round for the TCE-division)
