EUROPEAN SEASON MEDIA OVERVIEW

ABOUT CREVENTIC

Founded in 2005, CREVENTIC has fast established itself as one of the most professional organizing bodies in the world of motorsport. Built by, and for, keen amateur racers, CREVENTIC's network has grown substantially since its 'humble' beginnings – continuing to do so today – and remains among the most respected names in the motor racing community, thanks to an ever-increasing portfolio of endurance racing series catering to GT, touring car, Le Mans-style prototype racing, and pretty much everything else in-between.

Based in Gennep, The Netherlands, CREVENTIC's extensive racing programs welcome teams, drivers and motorsport personnel from around the globe to compete at some of the most challenging and vibrant race circuits in the world, and the highly-competitive racing categories therein. Indeed, providing top-level racing with a relaxed paddock environment has seen the 24H SERIES powered by Michelin tour extensively across Europe, the Middle East and the United States of America, with ambitions to extend this portfolio in the future.

Our focus, however, has never been to 'win at all costs'. For close to two decades, CREVENTIC has prided itself on offering high-quality, professional service alongside a welcoming, approachable atmosphere in its paddocks. Team spirit, fair racing, and actively enjoyable competition with an international flair are our bread and butter, and we wouldn't have had it any other way.

"At CREVENTIC, we like to do things differently: to create an open environment that's comfortable as well as professional; to raise expectations and benchmarks through innovation, all while keeping our feet on the ground; to offer the best possible endurance racing experience for everyone, everywhere, with the best value for money; and to give you the most professional and approachable motor racing service you've ever had. In short, CREVENTIC wants to put the fun first in racing"

If you're interested to learn more about our organization, or how you too can compete in the 24H SERIES powered by Michelin, you can contact us at info@creventic.com. And don't worry, our multi-national network will be able to assist any enquiries you may have, be it in English, French, German, Spanish or Dutch.

24H
SERIES

Global tyre leader Michelin is the official tyre partner of CREVENTIC's 24H SERIES, bringing world-class tyre technology to a highly respected endurance racing championship. Now in its second year, the partnership combines Michelin's expertise in performance, durability, and sustainability with CREVENTIC's experience in organizing exciting long-distance races.

Michelin supplies high-performance tyres engineered to deliver consistent grip, speed, and reliability across a wide range of tracks and challenging conditions. Teams also benefit from Michelin's on-track support, ensuring optimal use of tyres throughout each race.

With a focus on innovation and sustainability, including the use of renewable and recycled materials, CREVENTIC and Michelin together continue to raise the bar in endurance racing, offering safe, competitive, and thrilling experiences for drivers and teams worldwide.

24H
SERIES

Working as a partner of CREVENTIC, 0221 Mediagroup is responsible for everything which is „live“ since 2012. We cover all services effecting the live broadcast of the 24H SERIES. Our OB Vans as well as our flight cases are used to produce and stream all races worldwide, viewable free of charge for every racing Fan.

We move with the times and keep developing and are pioneers in „AVXR“, better known as Augmented / Virtual Reality, integrated in Live coverage. We conceptualize everything on each event and our work is specially tailored for each race.

The relationship between CREVENTIC and Radio Le Mans, goes back to 2012 when the 24H DUBAI was broadcast live for the first time. The January event, the opening to the international endurance racing calendar, had been running since 2006 and was one of the events the audience most requested was given coverage.

From the earliest phone calls and meetings, it was clear that CREVENTIC and RSL shared the same passion and enthusiasm for endurance racing. The CREVENTIC philosophy of organizing races for racers, putting the competitor first, mirrors the "fans first" RSL approach to broadcasting.

CREVENTIC organize events, on bucket list circuits for drivers, without many of the obstacles to competitors found in other more traditional series and championships. Easy registration, national license levels where possible, the series organized transport of race cars and a class structure with 'real world' BoP, allows an eclectic mix of cars to compete together.

On the broadcast side Eve Hewitt, Managing Director of Radio Show Limited cites the "democracy of radio" as the essential principle behind free to air, non-geoblocked, uninterrupted coverage. The professional yet informal tone of the broadcast is influenced by and reflective of, the collaborative, family atmosphere created by the CREVENTIC organizing team which encompasses the whole paddock.

This "no barriers" approach allows endurance racing fans to share the pure spirit of endurance experienced by competitors. This resonates with the listeners and viewers and despite the relative lack of big name teams or drivers, especially in the early years, CREVENTIC audio and video broadcasts attract a loyal and growing audience.

Access to endurance racing, at the track as a competitor, around the world by the fans, delivered by CREVENTIC and RSL.

Scrutineering

The partnership between CREVENTIC and Speedcom/AIM started in January 2008. Speedcom/AIM has followed the championship through any circuit, any country it has been, from Hungary to USA, with grids of 15 or 100 cars, always putting our best, just like CREVENTIC did. I think that from that point, Creventic and Speedcom/AIM took care of each other and help in everything possible.

In relation to CREVENTIC, we are responsible for the communication systems of the CREVENTIC team and for the last 4 years, we also help in scrutiny with our specialized department AIM Scrutineering. For the teams and drivers in the championship, we offer an integral service for what we believe they may need. In order not to lose our beginnings, we offer complete assistance for SPEEDCOM brand communication systems. As we have been AIM for more than 25 years, we also offer all data acquisition systems and on-board cameras and for 4 years, we have been importers of BELL and OMP offering their entire range of products on the circuit.

SHARE LOGISTICS

DUBAI
AUTODROME

For the first time in the 18-year history of CREVENTIC, Share Logistics was nominated as logistics partner for the first ever edition of the 12H KUWAIT and the well-known 24H DUBAI.

For Share Logistics it was a very exciting and great adventure to work closely with the team of CREVENTIC, and the relationship quickly took on friendly forms as we felt like being part of the team sharing the same goals; making the race happen! As logistics never goes without hiccups, both our companies had to put all the effort into the project in order to finalize and we feel happy to have succeeded in our mutual goal.

After months of planning and adjusting, we are looking back at a wonderful event and are proud to have been a part of the organization. Especially during our presence at the event itself, it is astonishing to see the entire operation of the team. We are looking forward to being a partner for the next edition and bring our service to an even higher level.
