

## Private jet service now available for 24H SERIES competitors with new CREVENTIC partner, NIOLA JET

- Premier private jet service available to competitors from next month's Hankook 12H MISANO onwards.
- Bespoke air travel dedicated specifically to the motorsport industry.
- Avoid the hassle of travel; spend more time on pre-race prep!

**GENNEP (7 June, 2024) – Air travel to and from 24H SERIES powered by Hankook events is set to become even more convenient for participating teams, thanks to a new partnership between Dutch promoter CREVENTIC and premier private jet service provider, NIOLA JET.**

Unlike other contemporary air travel providers, NIOLA JET, based in the heart of Europe, provides a bespoke air travel service catering specifically to the motorsport industry. As part of their new working relationship, NIOLA JET will organize direct flights – “tailored luxury air travel” – to and from official CREVENTIC events in a seamless journey.

By significantly reducing travel time, fatigue and the risk of delays, and alleviating potential concerns over lost luggage, the ‘24H SERIES NIOLA JET’ service aims to provide registered teams with more time for pre-race prep.

**David Vink, CREVENTIC event manager:** “CREVENTIC is beyond thrilled to offer a whole new level of comfort and travel convenience for teams and drivers competing in the 24H SERIES, both this year and for the foreseeable future. Supported by our new partner NIOLA JET, we’re confident our competitors will feel an appreciable difference through this elegant direct flight service.”

The new 24H SERIES NIOLA JET service will be in action for the first time ahead of the Hankook 12H MISANO on 5-6 July.

To help streamline their journey to the race, drivers, guests, sponsors, and other VIPs of registered teams will take a direct flight with NIOLA JET to Rimini airport, just 15 minutes from the Misano World Circuit Marco Simoncelli. Moreover, as part of NIOLA's 'door-to-door' service, ground transport will shuttle passengers directly to their hotels and/or the circuit itself from Rimini airport.

As part of its 'NIOLA X' program, the French jet service provider is also promoting its new Jet Sharing system, which allows teams and drivers to share charters to their communal destination on the Adriatic Coast. A more cost-effective and environmentally friendly travel option that reduces the number of empty seats per flight while maintaining the luxury and convenience of private jet travel.

The service will be available to registered teams for all remaining European rounds of the 24H SERIES in 2024, all European rounds of the series in 2025, and the inaugural 992 Endurance Cup powered by Porsche Motorsport on 6-7 September.

Competitors entered for the Hankook 12H MISANO on 5-6 July can enquire about charter flights with NIOLA JET via [24hseries@NIOLAJet.com](mailto:24hseries@NIOLAJet.com), and/or speak directly to CREVENTIC on +31 485 471 166. Details regarding a similarly charter service for the 24H SERIES' European season finale at the Circuit de Barcelona-Catalunya – the 25<sup>th</sup> edition of the Hankook 24H BARCELONA – can also be discussed.
