## EVENT INFORMATION

- **Code60-Safetycar Procedure (CSP)** A safety car to restart the race after a race neutralization (Code60), cars which are trapped between their class leader and the safety car will be allowed to overtake (Pass-By) the safety car and re-join the back of the field. The Goal of pass-by is to solve the negative side effect of Safety Car at multi-class racing. During Code 60 and/or CSP-procedure, the maximum refuel amount for all cars is 10 L
- **Driver changes and driving time**
  - Minimum 3 driver changes mandatory
  - No minimum or maximum driving time requirements
  - No minimum rest-time requirements
- **Unofficial test sessions**

On Thursday 20 January, a 3 hour open pitlane session will take place. This test is not included in an entry fee package and needs to be ordered separately. If you would like to take part in this session, please inform us via email.

On Friday 21 January, two private test sessions of 1,5 hours each take place. 1 session is included in the medium package and both sessions are included in the complete package.
- **Administrative check** All drivers (except drivers who also participated in the 24H DUBAI) must submit their entry details and their new 2022 license in advance. Please make sure that all your drivers have submitted their details. [The entry details can be submitted here](#)
- **License requirements 2022**
  - Drivers need minimum a National license
  - Or International ITC-C or ITD-C license
  - All foreign drivers must have an authorisation of their ASN
- **Refuelling** The refuelling area is located at the beginning of the pit lane. Your fuel inlet needs to be prepared to refuel with a standard (commercial) fuel-pump-pistol, therefore the refuelling orifices of the tank must be equipped for this operation.
- **Media** Media accreditations can be made here: <https://www.24hseries.com/accreditation>
