

CREVENTIC – Official Application guide

The official CREVENTIC app streamlines all communication channels for teams and drivers into a single platform. The app serves as an important toolkit for teams (chats / penalties / fuel info / notice board) and drivers can easily complete their pre-event sign-on on their mobile phone. The Creventic app is used for all series: Michelin 24H SERIES, Michelin 992 Endurance Cup, Prototype Cup Europe and Radical Cup Europe.

1. Install the application

The app is compatible with mobile devices only.

- [Download IOS \(Apple Store\)](#)
- [Download Android \(Google Play Store\)](#)

2. Log in to your account

- Enter your email address in the app to receive a personal link for automatic login.
- Once you are logged in, your session will remain active on the same device
- In case you are having trouble logging in, please contact 24hseries@creventic.com for assistance.

3. Functionalities of the app

Entry pass	✓	✓	✓	✓
Event sign-on teams & drivers	✓	✓	✓	✓
Notice Board	✓	✓	✓	✓
Time Schedule	✓	✓	✓	✓

CREVENTIC – Official Application guide

4. General information / Remarks

- We suggest **enabling push-notifications** so you will receive a notification for chats, notice board, penalties and fuel operations
- **Additional team members** can be added to your team so that they will receive all updates (chat / penalty / fuel) as well. Click on your profile left top corner and select: **Team access** to invite other team members.
- **Please note that each person must have their own account.** Using a single account for multiple people may cause errors and prevent push notifications from being received.
- If you abuse the team messaging application we will block your account
- If you have any issues, please contact 24hseries@creventic.com or visit our welcome centre on the paddock.
