10.3 Radio Communication

To use communication equipment during events, teams need to apply for temporary use of radio equipment. This application needs to be made by the team itself, at least 1 month before the event.

The application form can be obtained at:

<https://www.agentschaptelecom.nl/documenten/formulieren/2017/april/4/application-form-for-the-use-of-frequencies-during-events-in-the-netherlands>

10.4 Clean pit boxes and paddock

Teams must leave the pit boxes and paddock clean, in the same state as when they entered the property.

Please understand that any cost of cleaning circuit-properties, provoked by the competitor, driver or any team member will be accounted to the competitor.

10.5 Intervention break rules

For 12H ZANDVOORT:

Intervention break rules, do apply according: art. 38 (Chapter I) of the Sporting & Technical Regulations.

See time table for Part 1 and Part 2.

10.6 Pitstop

Art. 21.2.5 of Chapter I of the Sporting & Technical Regulations

Due to COVID-19, art. 21.2.5 will be replaced by the following rules:

A maximum of two (2) people may work on or examine the vehicle simultaneously. At any time these people will be recognized by wearing a yellow vest (Those team/mechanic, yellow vests, will be provided by the promoter). These TWO (2) people must be the same each pit stop procedure and cannot be changed during the pit stop by anyone else. Nobody may assist the two (2) people that work on the car in any way. Any help can be penalised as "Working with more than two (2) people on the car" (E.g. handing over tools or parts is not allowed). So, only two (2) people wearing a yellow vest, are allowed to work on the car.

Extra there can be a lollypop man who can also be a windshield washer (this person does not need to wear a yellow vest).

If a team member wants to readout/collection data logger data, he or she **MUST** wear a yellow vest.

The driver coming out of the car is allowed to help the driver entering the car and fixing the seat belt.

Also another team member (Driver assist) is allowed to help the driver entering the car and fixing the seat belt.

This team member (Driver assist) must wear a green coloured vest (provided by the promoter).

Also "one of the two (2) people" wearing a yellow vest is allowed to help the driver entering the car and fixing the seat belt.

So the driver entering the car can be helped by the driver coming out of the car and/or, the driver assist (wearing a green vest) and/or "one of the two (2) people" (wearing a yellow vest).

The team member (Driver assist) helping in the next driver is only allowed to assist entering the car and help fasten the seat belt, replacing the drinking bottle and connecting radio communication set.

The lollypop man is only allowed to hold the lollypop and to work as windshield washer to wash the windows and lights. However he has to keep the lollypop in his hands. So he is not allowed to drop down the lollypop in the working area.

On ground of safety it is not permitted to undo or loosen safety belts or remove articles of driver equipment while entering the pit lane. Only when the vehicle has stopped at its designated place, the driver may remove the safety harness and race protection equipment.

According to the Sporting & Technical Regulations of the 24H SERIES, a separate BOP-publication is published per event (see www.24hseries.com/series/team-info) including the applicable BOP figures of the specific race.
