

ADVANTAGES & SERVICES

With Hankook as title sponsor and single tyre supplier we are pleased to offer the following advantages during the 24H INTERNATIONAL ENDURANCE SERIES powered by Hankook:

- Attractive Hankook tyre prices, as listed on our website:
<http://www.24hseries.com/series/team-info>
- Hankook will support teams individually to make the best choice of the tyre size and compound to use during 24H SERIES races.
- Previously purchased rain and slick tyres at 24H SERIES races with a special Hankook decal can be used in all other 24H SERIES events.
- Because all Hankook tyres will be delivered at the track, teams only have to pay for the tyres they actually used (Please note: Tyres fitted on the rims are not refundable. However, rain and slick tyres with a special Hankook decal can be used in other 24H SERIES events).
- Maximum competition, because all teams will run on the same high quality Hankook tyres.
- Hankook will have rain tyres available for each team (2 sets per team at 12H races, 3 sets per team at 24H races). From experience Hankook can inform you that three sets can run 4-6 hours under full wet conditions

Please note:

Rain tyres are not returnable.

We'll not accept any return of any wet tires if mounted or not

If team order wet. They have to take it over and pay all of them

- Hankook will take care of transport of all tyres, therefore teams will save on the transport costs.
- At each of the 24H SERIES powered by Hankook races, at least 6 Hankook tyre service engineers will be available in the pit lane to support and advise the teams.
